

PREVENT UNEVEN REAR TYRE WEAR ON YOUR BA-FG FALCON OR SX-SY TERRITORY!

Nolathane are please to provide two camber correction solutions that can rectify or optimise rear camber settings for the rear end of BA-FG Falcons and SX-SY Territory's (2WD & AWD).

46208 - Rear Upper Control Arm Inner - Eccentric Adjustable Bushing Kit

Simply replace the rear upper inner control arm bushings with high performing, long lasting Nolathane, featuring offset threaded crush tubes and 2 bolt adjusting design. This simple adjusting design provides up to 0.75° of positive camber adjustment to reduce costly inner edge tyre wear.

46909 - Rear Upper Adjustable Control Arms

This kit is designed specifically for those suffering severe rear tyre wear issues or those chasing optimum alignment settings for maximum tyre performance and grip. These heavy duty tube arms feature on car turnbuckle adjustability, OE style low compliance spherical joint on the outer mounting point and high performing, long lasting Nolathane bushings on the inner. Designed for serious alignment change these arms provide up to 1.5-2.0° of camber change

Designed to integrate and offer a fully balanced handling solution. **Nolathane** suspension offer replacement bushes and alignment products. So for a catalogue, brochure or technical information on any of the **Nolathane** products contact the Redranger team on 1300 88 2355 or visit www.nolathane.com.au
